

# JAMES WILSON

## Full Stack Developer

Seattle, WA | (555) 123-4567 | [james.wilson@email.com](mailto:james.wilson@email.com) | [linkedin.com/in/jameswilson](https://linkedin.com/in/jameswilson) | [github.com/jameswilson](https://github.com/jameswilson)

## PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience building responsive web applications using React and Node.js. Proven track record of implementing RESTful APIs and optimizing application performance. Skilled in JavaScript and modern frameworks with a focus on writing clean, maintainable code.

## TECHNICAL SKILLS

**Languages:** JavaScript, TypeScript, HTML5, CSS3, SQL

**Frameworks/Libraries:** React, Node.js, Express, Redux

**Tools:** Git, Webpack, Jest, AWS, Docker

**Databases:** MongoDB, PostgreSQL

**Methodologies:** Agile/Scrum, CI/CD, Test-Driven Development

## PROFESSIONAL EXPERIENCE

### SENIOR FRONTEND DEVELOPER

**CloudTech Solutions** | Remote | Jan 2023 - Present

- Lead development of responsive web applications using React and TypeScript
- Implemented RESTful API integration across multiple projects, reducing data fetch times by 30%
- Redesigned authentication system using JWT, improving security and user experience
- Collaborated with UX/UI designers to implement pixel-perfect interfaces
- Mentored junior developers through code reviews and pair programming

### FULL STACK DEVELOPER

**WebSmart Technologies** | Portland, OR | Aug 2020 - Dec 2022

- Developed and maintained web applications using React, Node.js, and Express
- Created and optimized RESTful APIs for backend services
- Implemented MongoDB database solutions for multiple client projects
- Contributed to migration from monolithic architecture to microservices
- Participated in daily stand-ups and sprint planning in an Agile environment

## **JUNIOR WEB DEVELOPER**

**Digital Innovations** | Seattle, WA | Jun 2019 - Jul 2020

- Assisted in developing frontend components using React
- Collaborated with backend developers to integrate API endpoints
- Fixed bugs and improved existing features in multiple web applications
- Participated in code reviews and implemented feedback

## **EDUCATION**

**Bachelor of Science in Computer Science**

University of Washington | Seattle, WA | 2015 - 2019

## **PROJECTS**

**E-commerce Platform** | [github.com/jameswilson/ecommerce-platform](https://github.com/jameswilson/ecommerce-platform)

- Built a full-stack e-commerce application using MERN stack
- Implemented Stripe payment integration and user authentication
- Utilized Redux for state management and AWS S3 for image storage

**Task Management Application** | [github.com/jameswilson/task-manager](https://github.com/jameswilson/task-manager)

- Developed a responsive task management app using React and Node.js
- Implemented drag-and-drop functionality and real-time updates
- Created RESTful APIs for task creation, updating, and deletion

## **CERTIFICATIONS**

- AWS Certified Developer - Associate (2022)
- MongoDB Certified Developer (2021)
